As per Lab findings:-

Reports from Aanandi pathology lab signed by Dr.Payal Kalwar(MBBS)Regno.04/215/1699 from dated 27/02/2026Haemoglobin 12.6 gm%, Total WBC Count 13800 /cumm (high), Neutrophils 78% (high), Lymphocytes 16%, Platelet Count 94000 /cu.mm (low). Bleeding Time 5.42 minutes (high), Clotting Time 42.5 minutes (high). Activated Partial Thromboplastin Time 58.6 seconds (high).ESR 60 mm (high), CRP 53.7 mg/L (high). LDH 481 U/L (high). Kidney Function Test (KFT) values were within normal limits (Sr. Creatinine 0.90 mg/dl, Blood Urea 23.7 mg/dl).Occasional RBCs, 2-3 Pus Cells, 1-2 Epithelial Cells. Urine culture showed no growth after 48 hours and from 02-03-2026 Haemoglobin 9.8 gm%, Total WBC Count 22400 /cumm (high), Neutrophils 92% (high), Lymphocytes 4%, Platelet Count 10000 /cu.mm (critically low).Blood Culture identified Escherichia Coli. Sensitivity report showed sensitivity to Cefzinex Azabactum, Polymyxin B, Colistin, Meropenem, and Tigecycline.

As per Dr. Statement:-

Dr.Aniket Sutar(MBBS)Regno.2024/05/2841 stated Patient admitted in the Orion hospital on dated 27-02-2026 at 09:15PM due to Vasculotoxic Snake bite in emergency and patient is availing cashless facility in the hospital

Pathology Check

1. Pathologist Name & registration details
2. Investigation reports verification
3. Name of Pathology

Phatology/Lab type In-house Outsourced

Did you verify the Phathology	Yes		No	
Did you verify the Lab reports	Yes		No	

Radiologist Check
1. Radiologist Name & registration details
2. Radiologist details
3. Investigation reports verification

Radiology/Lab type	In-house		Outsourced	
Did you verify the Radiologist Details	Yes		No	
Did you verify the Radiology Details	Yes		No	
Did you verify the Cell counter data	Yes		No	

Pharmacy Check:
1. Pharmacist registration number

Pharmacy/Medical Store type	In-house		Outsourced	
Did you verify the Pharmacy Details	Yes		No	
Did you verify the medicines availability	Yes		No	
Medicine bills & Batch Number Verified	Yes		No	
Medicine purchase invoice Verified	Yes		No	

Employer verification (if working)

Did you verify with employer about the attendance	Yes		No	

Vicinity Check
1. Neighbour Vicinity check, details
2. Colleague Vicinity check, details

Insured's Statement: (With Insured's ID and signature/Thumb impression):
As per Insured statement:-

- Patient was admitted with complaints of a snake bite on the medial side of the right leg, which occurred near Takadgaon, Geurai, around 8:30 PM on 27/02/2026 and patient was immediately took to the Orion hospital and patient was advised to get hospitalized and patient got hospitalized on 27-02-2026 at 09:15PM in ICU and patient had no past history of any chronic illness.

Insured's ID photo/VISIT/ICP's photo/Patient's Photos/Hospital's photo/Investigator's photo/Pathology Photo (Google timeline images) shall be attached with this report

Any Other observation

- The patient was admitted on 27-02-2026 at 09:15 PM with an alleged history of snake bite at the medial side of the right leg near Takadgaon Road, Gevrai, around 08:30 PM on the same day. The patient was diagnosed with Vasculotoxic Snake Bite with Acute Kidney Injury (AKI).
- During hospitalization, the patient was transfused with blood on 27-02-2026 and 28-02-2026; however, there was no documented evidence of active bleeding during the hospital stay, which raises concerns regarding the medical necessity of blood transfusion.It was also observed that Inj. ASV (Anti-Snake Venom) 10 vials were administered at the time of admission and the same dosage was continued up to 02-03-2026. Despite repeated administration of the same dosage, there was no documented progression or change in the patient’s clinical condition, which does not justify prolonged hospitalization.
- Additionally, we received a similar snake bite case has previously been received from the same hospital.
- **We need to do vicinity nearby incident location to rule out genuinity of the case so in depth investigation recommended in this.**
- **Need to check**

Conclusion: Query needs to be raised blood transfusion bill and Anti-Snake Venom purchase invoice bill.
